Why you should choose Milgard windows and doors

Quality

Milgard offers award-winning windows and patio doors built for long-lasting comfort. For over 50 years, industry experts have consistently recognized Milgard as a trusted brand. By producing our vinyl and fiberglass frame materials in-house, we can more closely monitor for quality control. Milgard windows and patio doors stand up, while standing out.

Experience

Since 1962, Milgard Windows & Doors has designed and assembled superior, top quality windows and patio doors, backed with a Full Lifetime Warranty. Milgard engineers are known for their industry-leading designs using patented technologies. Whatever your project calls for, Milgard has the right product that can beautifully reflect your vision. From new construction to home remodeling, all Milgard windows and doors are custom made to your exact specifications.

Service

We serve the Western U.S. and Canada with a dozen full-service facilities and customer care centers. Our belief is that by being close to our customers, we can provide you better service.

Full Lifetime Warranty

At Milgard, we build our windows to last. With the dedication to quality that we put into building the best windows in the business, it wouldn't make sense to back them with anything but the best warranty in the business.

That's why we back every properly installed window and door for as long as the homeowner owns their home – including parts and labor. It's why you can be sure you won't find any windows better than Milgard.

Define your home with *Windows*

Style Line® Series windows can be combined to include different operating styles, so you can mix and match throughout your home.

HORIZONTAL SLIDER

Horizontal Slider windows open with the sash sliding left or right. In a single slider, one sash slides to open. In a double slider, both sashes open. Since they open and close without protruding, horizontal sliders are an excellent choice for rooms facing walkways, porches or patios.

SINGLE HUNG

In the single hung window, the bottom sash moves up to open and allow air flow and the top sash is fixed. Since it opens and closes without protruding, single-hung windows are an excellent choice for first-story rooms. Single hung windows work well in combinations.

CASEMENT

A casement window is hinged at the side and opens outward like a door. Unlike single hung or sliding windows, a casement window has no rail for an unobstructed view. If you're installing windows over a sink, countertop or appliance, a casement window with a crank can be the perfect solution.

AWNING

Awning windows are hinged on top and open outward, enabling ventilation without letting in rain or falling leaves. They are a great choice to pair with non-operable windows, such as above or below a picture window.

PICTURE AND RADIUS

Like the art on the walls, picture windows are the frame for your view. With picture windows, you can frame your view in just about any shape or size. Combine picture windows with any operating style, and use in any room.

Positive Action Lock

With its simple operation, the Milgard Positive Action Lock is window hardware you can count on to perform. Made to close and lock the window securely in one action, it eliminates any guessing. If the window is closed, it's locked. Plus, it meets and exceeds the toughest residential forced entry codes in the nation, making your windows beautiful and safer.

Casement and Awning Hardware

The operating hardware for casement and awning styles is an innovative folding handle that tucks out of the way with the locking hardware designed for smooth, easy-to-operate action.
