

# ULTRA™ SERIES

Durable, Beautiful Fiberglass  
Tough Against the Elements  
Upscale Contemporary Style

# Your style *Envisioned*

## If you can dream it...

Imagine the home of your dreams. You've thought about it many times – warm rooms full of light and life. Maybe there's a master bedroom just waiting for the window to capture the perfect sunset view. Or a cheery kitchen that needs a bay window to let the sunshine stream into the breakfast nook on a relaxed Sunday morning.

## We can build it...

This is your chance to make your dreams real.

For appearance and performance, Ultra offers an upscale look that will complement any home. Its baked-on paint finish won't peel or crack, unlike a painted wood finish.

Big or small homes, new or remodeled, classic or contemporary, Milgard Ultra™ Series fiberglass windows and patio doors add impact and value to your home.

*"We love the look of these windows because we were able to select a frame coating color that matches our home's color schemes (we chose Bark.) Also, the windows themselves have improved the views of the greenery outside. With the SunCoatMAX Low-E glass coatings, we can enjoy lower UV entering our home and hopefully lower utility bills. There is a significant noise reduction benefit in our home as well."*

## Full Lifetime Warranty

At Milgard, we build our windows and patio doors to last. With the dedication to quality that we put into building the best windows in the business, it wouldn't make sense to back them with anything but the best warranty in the business.

That's why we cover defects in material and workmanship for every properly installed window and door for as long as you own your home – including parts and labor. Ultra™ Series windows and doors also come standard with Glass Breakage Coverage. It's why you can be sure you won't find any windows better than Milgard.

# Define your home with *Windows*

Carefully chosen windows can make any home spectacular and make a statement about your style. Since every Milgard window is custom built to your order, you have the freedom to think outside the box. Mix and match window styles and configurations to achieve just the result you're looking for.

HORIZONTAL SLIDER

SINGLE HUNG

CASEMENT

AWNING

PICTURE AND RADIUS

BAY AND BOW

Horizontal Slider windows open with the sash sliding left or right. In a single slider, one sash slides to open. In a double slider, both sashes open. Since they open and close without protruding, horizontal sliders are an excellent choice for rooms facing walkways, porches or patios.

In the single hung window, the bottom sash moves up to open and allow in air flow and the top sash is fixed. Since it opens and closes without protruding, single-hung windows are an excellent choice for first-story rooms. Single hung windows work well in combinations. Consider combining them with picture windows or as a segment in a bay or bow window.

A casement window is hinged at the side and opens outward like a door. Unlike single hung or sliding windows, a casement window has no rail for an unobstructed view. If you're installing windows over a sink, countertop or appliance, a casement window with a crank can be the perfect solution.

Awning windows are hinged on top and open outward, enabling ventilation without letting in rain or falling leaves. They are a great choice to pair with non-operable windows, such as above or below a picture window.

Like the art on the walls, picture windows are the frame for your view. With Milgard Ultra Series picture windows, you can frame your view in just about any shape or size. Combine picture windows with any operating style, and use in any room.

Bay windows are 3-segment units that expand your space to the outdoors. Bow windows are multi-segmented units that create dramatic circular spaces. Add function to both by selecting your choice of operating styles for the segments.

# Swing and Sliding *Patio Doors*

The strength of fiberglass protects your investment from the harsher side of Mother Nature. Because of its inherent properties, fiberglass won't swell like wood and it expands and contracts at the same minimal rate as glass. Fiberglass won't crack, peel, warp, split, pit, or corrode and is virtually impervious to water.

Our fiberglass doors are available with your choice of baked-on standard colors for a finish that protects against UV rays.

Ultra Series patio doors come in sliding, in-swing or out-swing styles and built to your specifications with panels, transoms, or sidelites. Choose from a variety of hardware and virtually endless grid options.

*"This door is more solid than the solid door that we replaced. I didn't think that possible. We absolutely love it!! It looks perfect like it always belonged there. It is a very impressive door, with amazingly secure feel. Would order from Milgard over and over! Thanks!!!"*

## SunCoat® & SunCoatMAX®

Low-E coatings allow visible light through but block heat-bearing and fabric-fading portions of the solar spectrum. The result is less solar gain and UV protection against fading fabrics and furnishings. SunCoat Low-E2 glass comes standard on all Ultra Series windows and patio doors.

## Grids

Express your creativity and dramatically increase your home's curb appeal with our virtually endless grid options. Choose grids inside our insulated glass units for easy cleaning or Simulated Divided Lites (SDL).
